 stockholm

PROFILE

Junior fullstack developer with a strong background in frontend development using React and TypeScript, and currently studying .NET development. Experienced in building modern fullstack applications with a focus on usability, performance, and scalability. Seeking a junior position or internship where I can grow within a team and contribute to high-quality web solutions.

PROJECTS

Snip Saver – Fullstack Web Application

- Developed a fullstack application for organizing and managing code snippets
- Implemented authentication using Clerk and database storage with Supabase
- Built full CRUD functionality and syntax highlighting for improved developer experience
- **Tech stack:** Next.js, TypeScript, Tailwind CSS, Supabase

Electro – E-commerce Web Application

- Developed an e-commerce platform for electronic products
- Implemented shopping cart, product filtering, and checkout flow
- **Tech stack:** MERN (MongoDB, Express, React, Node.js), Tailwind CSS
